ABOUT TURKISH JOURNAL OF ELECTRICAL POWER AND ENERGY SYSTEMS

Turkish Journal of Electrical Power and Energy Systems (TEPES) is a peer reviewed, open access, online-only journal with the support of Association of Turkish Electricity Industry (TESAB) and led by CIGRE Turkish National Committee.

TEPES is a triannually journal that is published in English in February, June, and October.

Abstracting and Indexing

TEPES is covered in the following abstracting and indexing databases;

- DOAJ
- TUBITAK ULAKBIM TR Index
- GALE
- EBSCO
- China National Knowledge Infrastructure (CNKI)

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

TEPES aims to publish studies of the highest scientific and clinical value, and encourages the submission of the highest scientific level on all fields of electrical power and energy systems. The scope of the journals includes but not limited to:

1. Power Generation, Transmission and Distribution
 - Conventional and renewable power generation
 - Transmission systems
 - Distribution Systems, automation and control
 - Energy efficiency
 - Electromagnetic analysis and compatibility in power systems
 - HVDC and flexible AC transmission system (FACTS)
 - Renewable energy technologies and system
 - Transmission and distribution equipment
 - Insulated cables
 - Overhead lines
 - Substations
 - Electrical Power System Protection
 - Smart grids and renewable energy
 - Plasma physics and the pulsed power technology
 - Information systems and telecommunication
 - Electric vehicles and charging networks
 - Measurement
 - Power System control
 - Demand Response
2. Power System Management
 - Power system development and economics
 - Power system operation, planning and control
 - Power system environmental performance
 - Power system technical performance
 - Electricity markets and regulation
 - Load modeling, estimation and forecast
3. High-Voltage Techniques
 - Measurement systems
 - Electrical materials

- Emerging test techniques
 - Insulation condition and coordination in power systems
 - Over-voltage, lightning protection and grounding
 - Ultra-High Voltage (UHV) technologies
 - Electrical installations
4. Electrical Machines
 - Power electronics
 - Electrical Machines and Drives
 - Power transformers and reactors
 - Design of Electrical Machines for Sustainable Energy Applications

TEPES publishes basic research articles, reviews, and letter to the editors. Conference proceedings may also be considered for publication.

The target audience of the journal includes academicians, specialists, researchers and professionals who are working and interested in the field of electrical power and energy systems.

Open Access Policy

Turkish Journal of Electrical Power and Energy Systems (TEPES) is an open access publication.

Starting on January 2025, all content published in the journal is licensed under the Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

The content published before January 2025, was licensed under a Creative Commons Attribution-Non Commercial 4.0 International License (CC BY-NC 4.0).

All published content is available online, free of charge at tepes-journal.org.

Copyright Policy

A Copyright Agreement and Acknowledgement of Authorship form should be submitted with all manuscripts. By signing this form, authors agree that the article, if accepted for publication by the Turkish Journal of Electrical Power and Energy Systems (TEPES) will be licensed under a under a Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

Self-Archiving Policy

Authors retain the right to self-archive their work on their institutional or personal websites, as well as in open access repositories, after publication. It is expected that authors appropriately acknowledge the original publication and include the DOI number when sharing their articles. Additionally, authors are requested to provide a link from the deposited version to the URL of the publisher's website. This requirement is intended to safeguard the integrity and authenticity of the

scientific record, with the online published version on the publisher's website clearly identified as the definitive version of record.

Publication Fee Policy

Turkish Journal of Electrical Power and Energy Systems (TEPES) is the with the support of Association of Turkish Electricity In-

dustry (TESAB) and funded by. Authors are not required to pay any fees during the evaluation and publication process CIGRE Turkish National Committee.

Advertising Policy

Turkish Journal of Electrical Power and Energy Systems (TEPES) accepts digital

CONTENTS

REVIEWER SUMMARY

- 1 Reviewer List

RESEARCH ARTICLES

- 2 Axial Flux Permanent Magnet Motor Design for Lightweight Unmanned Aerial Vehicles
Faruk Kurtuluş, Erdem Akboy
- 10 Improving Accuracy in Solar Power Plant Power Generation Prediction: A Hybrid Model Proposal
Necati Aksoy, Veysel Murat Istemihan Genc
- 19 Deep Neural Network Implementation for Appliances Identification by Using Current and Voltage Signatures
Yılmaz Güven
- 30 Evaluation of Centralized and Distributed Energy Storage Systems in Residential Microgrid Topologies
Sezai Polat, Emrah Bıyık
- 41 The Effect of Local and Interarea Oscillations of Wind Turbine Generators Based on Permanent Magnet Synchronous Generators Connected to a Power System
Cem Haydaroğlu, Burak Yıldırım, Heybet Kılıç, Mahmut Temel Özdemir
- 54 Power Quality Management Using FACTS Device for Grid-Connected PV Solar and Wind Turbine Systems
John Abban, Patrick Ayambire, Francois Sekyere, Albert Awopone
- 66 The Effects of Partial Shading on a Grid-Integrated Photovoltaic System with MATLAB-SIMULINK
Farhanur Rahman, Mohammad Jarif Bulbul, Minhaz Yeamin, Arif Ahammad
- 78 Analysis of Grid Flexibility With Energy Storage Technologies for the Thrace Region of Türkiye
Emrah Solak, Sıtkı Kocaoğlu
