ABOUT TURKISH JOURNAL OF ELECTRICAL POWER AND ENERGY SYSTEMS

Turkish Journal of Electrical Power and Energy Systems (TEPES) is a peer reviewed, open access, online-only journal with the support of Association of Turkish Electricity Industry (TESAB) and led by CIGRE Turkish National Committee.

TEPES is a triannually journal that is published in English in February, June, and October.

Abstracting and Indexing

TEPES is covered in the following abstracting and indexing databases;

- DOAJ
- TUBITAK ULAKBIM TR Index
- GALE
- EBSCO
- China National Knowledge Infrastructure (CNKI)

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

TEPES aims to publish studies of the highest scientific and clinical value, and encourages the submission of the highest scientific level on all fields of electrical power and energy systems. The scope of the journals includes but not limited to:

- 1. Power Generation, Transmission and Distribution
- · Conventional and renewable power generation
- Transmission systems
- Distribution Systems, automation and control
- Energy efficiency
- · Electromagnetic analysis and compatibility in power systems
- HVDC and flexible AC transmission system (FACTS)
- Renewable energy technologies and system
- Transmission and distribution equipment
- Insulated cables
- Overhead lines
- Substations
- Electrical Power System Protection
- Smart grids and renewable energy
- Plasma physics and the pulsed power technology
- Information systems and telecommunication
- Electric vehicles and charging networks
- Measurement
- Power System control
- Demand Response
- 2. Power System Management
- Power system development and economics
- Power system operation, planning and control
- Power system environmental performance
- Power system technical performance
- Electricity markets and regulation
- Load modeling, estimation and forecast
- 3. High-Voltage Techniques
- Measurement systems
- Electrical materials

- Emerging test techniques
- Insulation condition and coordination in power systems
- Over-voltage, lightning protection and grounding
- Ultra-High Voltage (UHV) technologies
- Electrical installations
- 4. Electrical Machines
- Power electronics
- Electrical Machines and Drives
- Power transformers and reactors

• Design of Electrical Machines for Sustainable Energy Applications

TEPES publishes basic research articles, reviews, and letter to the editors. Conference proceedings may also be considered for publication.

The target audience of the journal includes academicians, specialists, researchers and professionals who are working and interested in the field of electrical power and energy systems.

Open Access Policy

Turkish Journal of Electrical Power and Energy Systems (TEPES) is an open access publication.

Starting on January 2025, all content published in the journal is licensed under the Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

The content published before January 2025, was licensed under a Creative Commons Attribution-Non Commercial 4.0 International License [CC BY-NC 4.0].

All published content is available online, free of charge at tepesjournal.org.

Copyright Policy

A Copyright Agreement and Acknowledgement of Authorship form should be submitted with all manuscripts. By signing this form, authors agree that the article, if accepted for publication by the Turkish Journal of Electrical Power and Energy Systems [TE-PES] will be licensed under a under a Creative Commons Attribution [CC BY] 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

Self-Archiving Policy

Authors retain the right to self-archive their work on their institutional or personal websites, as well as in open access repositories, after publication. It is expected that authors appropriately acknowledge the original publication and include the DOI number when sharing their articles. Additionally, authors are requested to provide a link from the deposited version to the URL of the publisher's website. This requirement is intended to safeguard the integrity and authenticity of the

scientific record, with the online published version on the publisher's website clearly identified as the definitive version of record.

Publication Fee Policy

Turkish Journal of Electrical Power and Energy Systems (TEPES) is the with the support of Association of Turkish Electricity In-

dustry (TESAB) and funded by. Authors are not required to pay any fees during the evaluation and publication process CIGRE Turkish National Committee.

Advertising Policy

Turkish Journal of Electrical Power and Energy Systems (TEPES) accepts digital

CONTENTS

RESEARCH ARTICLES

- **86** IoT-Driven Monitoring and Optimization of Hybrid Energy Storage Systems with Supercapacitors in Distribution Networks Elif Kavuş Demir, Cem Haydaroğlu, Heybet Kılıç, Mustafa Çelikpençe, Muhammet Mustafa Şahin
- **96** Applying the Extended Kalman Filter and Unscented Kalman Filter to Power System Forecasting-Aided State Estimation Yu-Jen Lin, Hong-Yi Lin
- **105** FACTS for Effective DER Integration into the Georgia Distribution Grids Giorgi Arziani, Teona Elizarashvili
- **114** In-Situ Efficiency Estimation of Induction Motors Using Whale Optimization Algorithm Murat Göztaş, Mehmet Çunkaş, Mehmet Akif Şahman
- **125** Design of Electrodynamic Suspension System for Hyperloop Pod Ibrahim Enes Uslu, Ahmet Selim Akkas, Mehmet Onur Gulbahce, Ilhan Kocaarslan
- **132** Magnetic Sensor-Based Approach for Overhead Transmission Lines Fault Detection and Location Using Line Fault Current Patrick Nyaaba Ayambire
- **142** Simulation of the Operation of an Autonomous Wind Power Plant with Aerodynamic Multiplication Based on an Asynchronous Generator with a Phase Rotor with Excitation From a Voltage-Source Inverter Hlib Strunkin
